

# PRESS RELEASE

ArbWest presents the

## WA State Tree Climbing Championships 2025

*Perth, WA – 18/8/2025*

ArbWest is proud to announce the **WA State Tree Climbing Championships**, set to take place at the stunning **Perth Hills Discovery Centre** in one of the most scenic and technically challenging climbing locations in Western Australia.

“This will be an exciting day and we expect a huge turnout,” said **Dave Crispin**, Acting President of ArbWest (pictured below). “People will come to see the climbing action, and it will also be an opportunity to learn more about protecting the urban forest. That’s what ArbWest is all about.”

Spectators will witness elite climbers from across the nation test their skill, speed, and strength in a variety of disciplines, all set against the beautiful backdrop of WA’s native forest.

“Only those willing to push their limits will have a chance to win,” Dave Crispin said. “We’re bringing together the nation’s top climbers — and from the very first event, the competition will be fierce.”

The main highlight will be the prestigious **State Masters** which promises an adrenaline-filled experience for competitors and spectators alike.

We can also expect to see leading brands showcasing the latest in chippers, trucks, EWPs, equipment & services.

Families are welcome too — with kid friendly activities and plenty to see and do.

Whether you're a seasoned arborist, industry professional, or simply looking for a great day out with the family, this event is not to be missed.

Dave Crispin
