Guest Speakers

JULIE FIELDER

Julie explores how fungi form relationships with trees and shrubs, and facilitate nutrient transfer between plants as well as uptake from the soil. **She will show how fungi are the planet's original recyclers.** Julie Fielder is an ecologist, mycologist and botanist with over 25 years of experience.

JEREMY THOMAS

Jeremy shares his experience of a successful Kings Park composting project. Contaminated green waste was treated while **preserving its value for park use, leading to cost savings, sustainability and environmental benefits.** As part of Arbor Carbon's consultancy team, Jeremy brings decades of expertise to sustainable tree care.

DAVE CRISPIN

Dave is ArbWest's Acting President, with 30 years of experience. An accomplished speaker and presenter, Dave shares his insights into proven techniques in establishing and managing amenity trees. He highlights how **proper soil preparation and tree care from the very start can save thousands** in long-term maintenance and replacement costs.
